ADVERTISEMENT.

To His Excellency Arthur Edward Kennedy, C.B. Governor of Vancouver Island and its dependencies:

In consequence of a Petition, purporting to emanate from nearly two hundred persons resident at Nanaimo, having been sent to the honorable Member for this place for presentation to the House of Assembly, praying that honorable body to throw out (as not needed) various sums named in the Estimates by the authority of your Excellency, for the present year, to be used in purchasing suitable buildings for public offices, court house, post office, harbor-master's office, &c., and to build a suitable jail, besides making other improvements.

We, the undersigned, considering that the wording of said Petition was an insult to your Excellency, as Her Majesty's representative, and also knowing that many of the signatures were obtained by misrepresentations, do most respectfully pray that your Excellency will be pleased to take such steps as your Excellency may see fit, to cause such sums in the Estimates to be reconsidered and amended.

With respect to the urgent necessity of a jail we respectfully beg to call your Excellency's notice to the fact, that during four or five nights of the past week, in one of which the thermometer stood 22 degrees below freezing point, two white men and a sick Indian were locked up in the bastion, which is quite open to the weather.

And your petitioners will ever pray.

DR. DAVY'S SPECIFIC COMPOUND

AN EXPEDITIOUS CURE FOR ALL DISEASES
—OF THE—
SEXUAL ORGANS.

This positively efficacious Remedy for Gonorrhea, Gleet, Strictures and Diseases of the Urinary Organs,

Makes a speedy cure without the least restriction to diet, exposure or change in application to business; it will radically cure any case which can be produced; the disease it removes as speedily as is consistent with the production of a thorough and permanent cure. Further the disease cannot be contracted if the SPECIFIC COMPOUND is taken when exposed.

Its ingredients are entirely vegetable, and no injurious effect, either constitutionally or locally, can be caused by its use.

"CONSTITUTION WATER,"

THE ONLY REMEDY
FOR DISEASES OF THE
Bladder! Kidneys!!
Gravel, Dropsical Swellings,
GENITAL DEBILITY, &c

THE ASTONISHING SUCCESS WHICH has attended this INVALUABLE Medicine renders it the most valuable one ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system; in fact, it stands unrivalled as a remedy for the permanent cure of maladies above mentioned and also

DIABETES,
IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,
GLEET, FLUOR ALBUS,

And in every disease any way connected with the disorders or decays of the PROCREATIVE FUNCTIONS. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER.

Whether broken down by excess, weak by nature or impaired by sickness, the unstrung and relaxed organization is at once rebraced, revivified, and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom of an almost idiotic apathy, becomes bright and active; and he goes forth regenerated, conscious of new vigor. The medicine reaches the CONSTITUTION itself, and restores it to its normal condition.

Irritation of the Neck of the Bladder,
INFLAMMATION OF THE KIDNEYS AND CATARRH OF THE BLADDER,
STRANGURY AND BURNING, OR PAINFUL URINATING,
CALCULUS, GRAVEL,
BRICK DUST DEPOSIT, AND
MUCOUS OR MILKY DISCHARGES,
AFTER URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said of its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases, and you will ever give your praise to

CONSTITUTION WATER!

Males & Females

Are you troubled with that distressing pain in the small of the back, and through your hips? CONSTITUTION WATER will relieve you like magic.

IODINE WATER.

IODINE WATER IS THE MOST IMportant discovery of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,
and to have great control over
SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless, until Dr. Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton of this city, and Professor Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioners (see American Medical Monthly, July 6, 1856, page 76.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver, and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, &c.

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increasing the appetite. In cases of Dyspepsia, Emaciation and Debility an increasing nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.

Full directions accompany each bottle.

Sold by all Druggists. Price $1 per bottle.

The Invalid's Friend.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of the Pills every night; eat plenty of solids, and avoid the use of slops. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters

If there is one thing more than another for which these Pills are so famous, it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm—in fact they never fail in curing all disorders of the liver and stomach.

Bronchitis, Diptheria, Coughs and Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of the blood, relieve the overgorged veins, moderate the hurried breathing, and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions

In cases of debility, languor, and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor.

Biliousness, Loss of Appetite, Headache, and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Jaundice	Secondary Symptoms
Asthma	Dysentery	Liver Complaints	Tic-Douloureux
Bilious Complaints	Erysipelas	Lumbago	Tumours
Blotches on the Skin	Female Irregularities	Piles	Ulcers
Bowel Complaints	Fevers of all kinds	Rheumatism	Venereal Affections
Colics	Fits	Retention of Urine	Worms of all kinds
Constipation of Bowels	Gout	Scrofula, or King's Evil	Weakness, from whatever cause &c., &c.
Consumption	Head-ache	Sore Throat	
Debility	Indigestion	Stone and Gravel	
	Inflammation		

Sold at the establishment of PROFESSOR HOLLOWAY, 244 Strand (near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d, 2s. 9d., 4s 6d, 11s, 22s and 33s each Box.

☞ There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box. oc10

DR. HOSTETTER'S STOMACH BITTERS.

THE OPERATION OF THIS PALATable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and the other fluids of the body purified?

Dr. Hostetter's Stomach Bitters.

Will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

CERTIFICATE OF DR. HAYES.

It is well known that the medicinal effects of Protoxide of Iron is lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron without further oxidation, has been deemed impossible.

In the Peruvian Syrup this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto carbonates citrates, and tartrates of the Materia Medica.

A COMMERCIAL REVOLUTION.

In our issue of yesterday we alluded briefly to the remarkable revolution which has taken place in social and commercial interests in India. The subject is one in all its bearings well worthy public attention. It shows to what extent the interests of one nation depend on those of another, and how the equilibrium of commerce being displaced in the southern portion of the United States affects even the distant plains and valleys of Hindostan. There is something curious and interesting in not only the ramifications and eccentricities of trade, but in the causes of the decay and resuscitation of commercial and industrial greatness. Who would have thought, for instance, that the election of Abraham Lincoln in 1860 would have made poor Roychund a millionaire in 1864, or that Beauregard's bombardment of Fort Sumter would have converted the poverty-stricken ryots of India into riotous-living nabobs? Yet such has really been the case. The disruption of the cotton industry in the Southern States has thrown the monopoly of the trade into the hands of the people of Hindostan. In 1860 the export of cotton from America was five million bales, or about 2,000,000,000 lbs., valued at upwards of $191,000,000, or about fifteen and a-half cents a pound. In 1864 it had decreased to 65,000,000 lbs. The cultivation of the cotton-plant in India has, however, been increasing in a geometrical ratio every year since the American civil war, until its exports the present year are estimated at one million and a-half bales, or, reckoning the East Indian bale at 365 lbs., 537,500,000 lbs. This, it is true, is but little over one-fourth the unusually large amount of cotton which was exported from America in 1860 prior to the breaking out of hostilities, but its value is fully equal to the five millions bales of that period. Such an immense inducement to the cotton cultivator will speedily bring the amount produced up to the American standard.

However immediate may be the termination of the present civil war, one thing appears very evident—cotton growing on the North American continent will never assume its former proportions or importance. It will take several years, under the most favorable circumstances, to bring this industry back into its normal channels, and when that time arrives it will be found that other countries can produce as good and as cheap cotton and in as large quantities as the Southern States. At present the most enterprising countries that are laboring to supply the Manchester mills are India, Egypt, China and Japan; but there are besides, Brazil, Turkey, the West Indies, and Peru. The anticipated crop from all these places the present year is about 3,000,000 bales. Next year it will fall probably little short of five millions—an amount, large as it may appear, that will be quickly absorbed if peace be restored in the interim between North and South; for independent of the increased demand consequent on the fall of price which will ensue from a cessation of hostilities, there is at present in every part of the world a great scarcity of manufactured cotton goods.

The revolution which this displacement of a great industry is going to work in England can scarcely be over-estimated. In times past Great Britain was dependent for the employment of her masses on the Southern States; every war-cloud in the West made her look with alarm on the condition of that manufacturing interest which gave food directly and indirectly to three or four millions of the population, and which added wealth almost beyond computation to the nation. Now let war come or go she has a great stand-by in her Eastern possessions. She has a country teaming with millions of a cheap labor population, and with an untold acreage of fertility—a country which only requires British enterprise and British capital to become a never-ceasing mine of wealth to itself and its possessors. This cradle of civilization will once more assume her old characteristic; the riches of "the Indies" will be something more than traditionary, and that vast population which is now plunged in superstition and idolatry will, through the powerful agency of a rapidly-increasing commerce, be brought more speedily under the benign influence of Christianity. As every country, however, like every house, has got its skeleton, so India is tormented with an institution that overhangs its prosperity like a Damoclesian sword—she is, in fact, hopelessly in debt. Not in debt in the European meaning of the term—as a State to individuals—but individually in debt to the Parsee usurer. Every small property-holder almost is attempting to clear off hereditary claims against his estate, but in vain—he is retained in hopeless bondage by his exacting and avaricious creditor, and goes down to the grave leaving his children this legacy of woe. Amid all the rejoicing, therefore of the new order of things, there is this heavy load on the poor occupier of the soil; and it is a matter of reproach that the Government has not dealt with the evil long ere this. In one locality, it is true, relief was afforded in the shape of the abolition of all legal processes for recovering money due, and it is said that prosperity immediately followed, but here the moral courage of the Government stopped. There is always danger of serious internal disturbance so long as this hereditary debt curse is allowed to continue. The evil is thus pithily described by an English journal: "By and bye Jacques Bonhomme dies, and his son has to take up his debt—the land being security—and contract a new one besides; and so the ball rolls on, till the seething mass of hatred receives some accidental spark, the terrible cry of '*Guerre aux riches!*' rises in some village, and debts, money lender, money lender's family and money lender's wealth in half an hour are all destroyed together. One of the mildest and happiest of Indian tribes in 1855 suddenly seized its forest hatchets, declared war to the rich, and chopped up every money dealer and sheriff's officer it could find." Such are the difficulties which present themselves in the present state of excitement. In other countries the poor in becoming suddenly possessed of wealth might still deem it necessary to practise economy and relieve themselves of debt; but the Hindoo, if he has become wealthy, has also become extravagant, and his recent exaltation will only in all likelihood force him more speedily into an open rupture with that class which appear to him as mortal enemies—the money lending Parsees.

THE ABDUCTION CASE—The enquiry into the circumstances attending the forcible removal of the Jenny Jones from the wharf was resumed yesterday in the police court. Mr. Ring, instructed by Messrs. Drake and Jackson appeared for Messrs. Spratt & Kriemler. The charge now preferred against Rhys Gwynn is for aiding with other persons in creating a riot. The evidence of a man named Fox and others who were placed on board by the mortgagees went to show that at 2 a.m. on February 9th, a gang of twelve men of whom the accused was one came on board the Jenny Jones lying at the Company's wharf, and ordered those on board, five in number, into the cabin, one of the party drawing a revolver and asserting that six others were fully armed in case of resistence. Some twenty men in boats then towed the steamer out. The mate was on board and appeared to give orders. When the steamer was about seven miles from shore the men who were locked up were ordered into the boats and landed near the harbor's mouth. The case was again remanded for one day, owing to Mr. Bishop's attendance in the Supreme Court

CHARGES OF STEALING GOODS AT THE FIRE.—Robert Anderson was charged before the Police Magistrate yesterday with stealing blankets and cloth of the value of $6 75, the property of Mr. Wm. Milby, from the scene of the fire on Saturday morning. A witness who was called to prove the fact stated that that the accused confessed the theft upon an assurance being given that he should not be prosecuted. The Magistrate thereupon dismissed the charge informing the witness that he had unwittingly committed the indictable offence of condoning a felony. John Thompson was also charged with stealing a pair of boots, the property of Mr. Norris. Thompson confessed to have been in possession of the boots, but urged that he had only deposited them for safe keeping in a store opposite during the conflagration. He called the attention of the Magistrate to the fact that at a former fire he had found a valuable gold watch and deposited it with the Chief Engineer to be returned to the owner. Mr. Keenan was called and verified the statement and the accused was discharged. The property in both cases was returned to the respective owners thereof.

THE STATE OF THE STREETS.—By a notice appearing elsewhere, it will be seen that the City Council have taken steps to remedy the present disgraceful condition of our principal thoroughfares. The services of the chain-gang will be applied for, and the acting Town Clerk is directed to wait upon the citizens and solicit contributions towards a fund to assist in removing the mud and filth that has been accumulating until the health of the city is in positive jeopardy. We feel satisfied that all will cheerfully give according to their means to aid in the completion of a work of such paramount importance, in a sanitary point of view, before the warm weather renders the nuisance doubly noxious.

MAYOR'S COURT—Mr. Sandreth appeared yesterday before His Worship the Mayor on complaint and information of Mr. J. C. Keenan, Chief Engineer of the Fire Department, who alleged that the defendant had stored a quantity of hay in bales on Wharf street next the Identical Saloon, which were considered by the merchants and others in the neighborhood to be highly dangerous in case of fire. The Mayor dismissed the summons on the defendant agreeing to pay the expenses and to comply with the wish of his neighbors by removing the inflammable materiel.

THE ASSIZES.—The March session of the Court of Assize and General Gaol Delivery will open this morning at ten o'clock, before Chief Justice Cameron. The criminal calender is light. The following is the list: C. Blair, larceny; Samuel Mathen, larceny, out on bail; Frederick Littler, perjury, out on bail; Wallis Skineham, larceny; John Butts, larceny; James McGilvery, larceny, James McGilvery, breaking gaol; Thomas Picton, breaking gaol; Lazar, half-breed, hooting with intent, &c. Also, two cases from Nanaimo, of stabbing and larceny.

CHURCHIANITY VERSUS CHRISTIANITY— In a recent number we reprinted a rather extraordinery sermon notice from the *Oregonian* in which it was said that Dr. DeWolfe intended to preach a lecture on the "absurdities of Christianity and Bible contradictions." The gentleman himself has called upon us to state that the *Oregonian* was altogether incorrect—that it was the "absurdities of churchianity" not Christianity, he made the subject of his discourse.

THE U. S. revenue cutter Joe Lane, commanded by our old friend Lieut. Selden, arrived yesterday morning from San Francisco, on a trip of inspection of the lighthouses on the northern coast. She has on board Capt. Watson, Superintendent of the Lighthouse Department on the Pacific. Capt W. is one of the oldest officers in the U. S. Navy, having been 42 years in the service. He formerly commanded the Erie.

SUPREME COURT.—Gastineau v. Selleck.—This was an action to recover $225 75, for surveying done for defendant, at Esquimalt. Defendant pleaded that the work had never been ordered by him. Judgment for defendant, with costs.—McCormick v. Corin and Hayward. Suit for wages for $62. Judgment for plaintiff.

APPRECIATIVE.—Messrs. Greily & Fiterre, whose premises were saved from the flames on Saturday last by the exertions of the firemen, have presented $100 to the Chief Engineer to be divided among the three companies.

THE LEGISLATIVE COUNCIL met yesterday, but in the absence of the unofficial members no business was transacted, and the Council adjourned to three p.m. to-day.

STABBING CASE.—Peter Legacy, charged with stabbing an Indian at Hill Side Farm, was again remanded yesterday for three days.

SENTENCED.—Jack, an Indian, charged with stealing three blankets the property of some person unknown, was yesterday sentenced to 14 days imprisonment.

HOUSE OF ASSEMBLY.

Monday, March 28th.

House met at 3.15 p. m. Members present. Messrs. DeCosmos, M'Clure, Tolmie, Dickson, Southgate, Bayley, Dennes, Powell.

FIRST READINGS.

The bill for Declaration of Titles came down from the Legislative Council and was read a first time; also the Postal Bill. Mr. DeCosmos' Homestead bill was introduced by the hon. member and read a first time, and ordered to be printed.

LIEN LAW.

Mr. DeCosmos' bill to secure liens to mechanics and others came up for a second reading.

The hon. mover said the object of this bill was to afford greater protection to mechanics, artisans and suppliers of material in putting up buildings, &c. The bill also provided fully for the rights of owners as against lessees.

Mr. Dennes seconded.

Dr. Tolmie asked if any provision were made to secure parties lending money to the person putting up the house as against the workmen.

Mr. DeCosmos said the money could be secured by first mortgage prior to the contract.

The bill was read a second time.

BIRTHS, MARRIAGES AND DEATHS.

Dr. Powell moved the second reading of this bill which he thought required no argument on his part to shew its value both for the prevention of crime and the procuring of valuable statistics. As to marriages the bill would tend to afford facilities for marriage by compelling clergymen to register. The provisions for registering births and deaths were also very necessary. The deaths so far as he could trace, had been in the following proportion: in the year 1860, deaths, 27; in '61, 73; in '62, 88; in '63, 108; in '64, 102; and up to March, 1865, 35.

Mr. DeCosmos seconded, and the bill was read a second time.

REPRESENTATION BILL.

Mr. M'Clure moved the second reading of a bill regulating the representation of Vancouver Island.

Mr. Dennes seconded and the bill was read a second time and sent to Committee.

TELEGRAPH BILL.

Mr. Southgate stated that he had received a letter from Gen. Williams, the President of the Company asking that the time be extended for three or four months, as he hoped by that time that the Imperial Government would consent to the bill as it stood.

The consideration of the bill was postponed.

UNIMPROVED LANDS.

Dr. Dickson introduced his motion for a Committee on the best means of promoting the agricultural interests of the colony. He felt sure that the House would be unanimous in promoting this great interest, and would therefore move that a Committee of three be appointed to report to the House.

Dr. Powell seconded, thinking it the best mode of settling this very important question.

The motion was agreed to and the Speaker appointed Dr. Dickson, Dr. Tolmie and Mr. Cochrane.

SCHOOL BILL.

The Speaker fixed Wednesday next for the consideration of the School Bill.

IMPRISONMENT FOR DEBT.

Mr. Dennes said to-day had been fixed for this bill.

This bill will come up in Committee on Wednesday next.

INCORPORATION BILL.

The House went into Committee on the Incorporation Bill, Mr. Dennes in the chair.

The bill was taken up at Schedule A, fixing the boundaries of the city.

Dr. Helmcken moved that the boundaries as they at present stand be the boundaries of the city.

Dr. Tolmie, in supporting the motion of the hon. Speaker, held in his hand a petition from some thirty residents adjoining the north side of the present city limits, praying that they be not included within the limits of the city. As certain hon. gentlemen were great advocates of local self-government, he hoped they would give due weight to this petition from the people themselves.

Dr. Dickson also held in his hand a petition from a number of the residents of James Bay, praying that they be not included within the city limits, and stating that as they had already expended several thousand dollars in roads through their property, and were prepared to expend further sums, they did not wish to be forced into the Corporation against their wishes.

Mr. Southgate thought it very unjust to retain the thinly peopled region of Victoria West and leave out the more thickly populated districts in other parts of the city. He advocated the adoption of the new boundaries.

Mr. M'Clure said although this House was always ready to listen to the voice of the people still there were occasions when small portions of the community should be over-ruled for the general good. The gentlemen who signed those petitions declined to place themselves under any incorporation bill, yet at the same time criticised the bill they refused to acknowledge. He saw the names of many influential gentlemen attached to this petition, and it would be a pity for themselves and the Corporation that they should be left out. One of the evils in municipal as well as political matters in the colony was the absence of a proper interest taken by the inhabitants, an evil which had prevented the city having a respectable incorporation. The most effectual way to interest the residents of any place in its Government was to bring them within the scope of taxation and this benefit he was prepared to bestow on the petitioners, even though they were disinclined to receive it. (Laughter.)

Dr. Tolmie said these gentlemen certainly knew best whether they should belong to the Corporation or not. These districts were perfectly unanimous in objecting to being included in the Corporation, and he could not see any semblance of justice in thus forcing them against their will to come within the Corporation.

Mr. DeCosmos was really surprised to hear hon. gentlemen advocate such a boundary as this (holding up a map of the present city limits). The boundary was the most remarkable of any one ever proposed by any number of sane men he could well imagine. If the hon. member for Metchosin had proposed some regular boundaries, even on a more contracted scale, he would not have been so surprised as to the argument for local self government. He always was in favor of that, and would therefore wish to bring these petitioning gentlemen within the boundaries to teach them the principles of self government. He could easily find many gentlemen even in the heart of the city who would object to be included in the Corporation, and with much better reason, because they could say that the streets were all made through their property, and the suburbs might make their own streets. The rate of tax imposed by the new bill was very low indeed, and would not fall oppressively on any one. As to these petitioners who had spent private moneys on their property, the bill contained a provision enabling them to tax themselves to improve their property. He was astonished to hear any legislator advocate such a boundary, and thought the petitioners should have been ashamed to put their names to such documents perpetrating a manifest injustice.

Dr. Helmcken was really so sick and so tired of this Incorporation Bill that he could hardly bring himself to allude to it at all. Had he had any idea that it would pass he might have brought in some amendments, but he had hoped it would have been thrown out by the House long ago. The hon. gentleman might be ashamed of such petitions as those before the House, but he was member for Victoria city, and of course he sought to curry favour with his constituents. But if the people did not wish to be incorporated, The House had no right whatever to force it on them. Now he would propose that if this ridiculous bill should by any means pass the House, that the bill be sent to the people, so that they might see what an absurd and ridiculous bill it was. The hon. junior member for the city said that if the people outside were included there would be a more respectable Council. Well, there was, no doubt, room for improvement on that head (a laugh). Another hon. member had said the suburban residents did not contribute to support the city roads. The people of the district already paid for their own roads, and much higher than people in the city (hear hear). Now this splendid bill, that was to make Victoria flourish like a green bay tree, actually enabled the city to raise the enormous sum of $25,000! How far this large revenue would go to make the necessary and much asked for improvements he would leave the House to guess. All he would say was that if the Corporation could raise $25,000 they would not stop at that sum. As to incorporation itself, what with the intense objection of the residents adjoining the present city limits to being incorporated, and the intense disgust of a great many in the city at the present bill, he thought the sooner the bill was put away out of sight the better. He had nothing further to say on the subject: he had such a loathing for the bill that he was sorry he had said so much about it already.

Mr. M'Clure said the hon. Speaker objected to the incorporation of the city because the bill was a bad one, and that therefore the extension of limits was wrong. A queer description of reasoning certainly. Now he maintained that the limits had nothing whatever to do with the merits of the bill. The other argument was that because certain people objected to being incorporated therefore they should not be included in the city limits. This was certainly a palpable absurdity. As well might Nanaimo have objected to be included in the general taxation of the country (hear, hear, and no, no!) It was this description of right asserted by the minority that had caused the present great struggle in America. The idea of twenty or thirty people in the suburbs objecting to be incorporated with five or six thousand who desired it, should not be entertained, especially when the value of those very men's property was vastly enhanced by the city improvements. The hon. Speaker had said that the people did not want an Incorporation. If there was any such feeling it arose not from any objection to the principle of municipal government, but from the disgust caused by the miserable abortions of bills which had been forced on them from time to time by this House (hear, hear.) The present bill, if it was faulty, could be recommitted. Under any circumstance, therefore, the hon. gentleman had no grounds for their present course. As to the hon. gentleman's allusion to the want of respectability in the Council, he (Mr. M'Clure) never intended such a remark—it was the want of a respectable act.

Mr. DeCosmos said the majority of the people demanded a Corporation and the voice of the majority should rule. He was surprised that a gentleman of such well known ability as the hon. Speaker should sit dumb in his chair while the bill was passing and then jump up and try to throw it out, instead of taking part in the discussion step by step, and trying to make it what it ought to be. The hon. gentleman again referred to the map of the city and showed the gross absurdity of the boundaries.

Dr. Helmcken—Would that this session were over, and no further trouble! (A laugh.) The hon. gentleman (Mr. DeC.) said it came with very bad grace from him (Dr. H.) that he did not try to amend the bill as it passed. He certainly did intend to try to amend the bill, and the hon mover had professed himself willing to alter and amend it to suit the House, but when the hon. member found that members opposed to the bill stood away he took the bill into his mouth, and with a majority at his back rushed the bill through the House. There was nothing for him (Dr. H.) to do but sit a passive spectator. He maintained that no one should be included in the corporation who did not wish to be so. (Oh, oh.) He denied however that on the same grounds Nanaimo could object to being governed by the general Government, because the Incorporation Bill was purely a private measure, and if the majority of the people were opposed to it it should be thrown out. The people have to ask to be incorporated.

Mr. Bayley thought the proposed city limits were far too large. He did not see why the Indian Reserve should be included within the city limits, and also the 5 and 10 acre lots of James Bay.

Mr. De Cosmos maintained that the bill had always been treated as a public bill, and if by the standing orders of the House it were made a private one, why did not the hon. Speaker declare it so when the bill came up.

Dr. Helmcken—I have stated so a dozen times.

Mr. De Cosmos said neither the House nor the hon. Speaker had so considered it.

Dr. Dickson wished to state that his opposition to the boundaries was solely caused by the petition placed in his hands.

Dr. Tolmie wished to state that his opposition to the proposed boundaries was caused solely by his sense of right.

The clause was here put, the hon. Speaker pairing off with Dr. Powell, who had left the House, and the votes stood as follows:

Ayes—De Cosmos, M'Clure, and Southgate (3).

Noes — Bayley, Tolmie, and Dickson (3).

The Chairman (Mr. Dennes) said, looking to the arguments brought up, and to the petitions before the House, he must give his casting vote against the proposed clause.

The Committee rose and reported progress, and the House adjourned till to-morrow (Tuesday.)

CITY COUNCIL.

Monday Evening, March 27.

The Council met last evening at 7.30. Present—His Worship the Mayor, and Councillors McDonald, Fell, Munro, Smith, and Jeffery.

COMMUNICATIONS.

The following communications were received, and ordered to be placed on file;

From Thomas Trounce, assenting to the resolution, of the Council in regard to the temporary rental of the Council chamber.

From Alfred Bowden and Wm. Lorimer, applying for the situation of city inspector.

From the Colonial Treasurer, acknowledging receipt of copy of City Assessment Roll, shewing list of defaulters in detail and in the aggregate.

From W. Leigh, acting town clerk, claiming payment of $200 for services rendered in framing the Assessment Roll and lists in detail for the use of the Government.

CONDITION OF THE STREETS.

Mr. McDonald said he wished to draw the attention of the Council to the condition of the streets. Warm weather was approaching, and if something were not speedily done some serious epidemic might arise among the inhabitants. He desired to say nothing about the bills now in the House of Assembly. A short bill had passed the Upper House, and a very long one the Lower, which would take some time before it could pass through the Upper—longer than it was desirable the Council should wait. He would, however, ask his Worship to meet the Council, and wait upon Excellency, in reference to the employment of the chain-gang. He thought the inhabitants would willingly tax themselves to have the streets cleaned. Five dollars from each resident would do the work effectually.

The Mayor coincided in the necessity of prompt action in this matter, and thought that $1 from each, with the aid of the chain-gang, would accomplish the work.

Mr. Fell perfectly agreed with the remarks of Mr. McDonald. The long Bill before the House would be a long time trailing its length along, and be regretted the short one had not been passed, as it would have long since placed the Council in working order. He had an objection to the chain-gang being engaged in such work as it afforded facility for escape, and he thought if the Council took some steps to levy a voluntary rate it could be easily obtained before warm weather came and produced sickness.

Mr. McDonald observed that the chain-gang had been employed on a former occasion without risk of escape.

The Mayor said the services of the chain-gang had been readily granted on application to Mr. Pemberton, then Chief Commissioner of Police, and there was no attempt at escape that he was aware of.

Mr. Smith approved of the services of the chain-gang being engaged if possible.

Mr. Fell thought that if a small rate were levied it could be easily collected, and if a thousand dollars were raised it would be a Godsend to many men amongst us who would be glad to get employment, and it was certainly more desirable to do this than to employ the chain-gang.

The Mayor said the Council had all the necessary implements for the purpose in their possession.

Mr. McDonald thought the Assessor might go round to residents on Johnson, Yates and Government streets and obtain voluntary contributions, and other citizens might be also asked to contribute.

Mr Munro suggested that the mud be dumped in heaps indiscriminately at the sides of the streets and that the residents be left to pay for its removal.

Mr. Fell suggested a rate of $1 50 on all rentals of $10 per month and an additional half dollar for each additional $10 rental per month. He thought this mode of raising the tax would be found very simple and few would object he thought to contribute from $2 to $5 for such a purpose.

On motion of Mr. McDonald it was agreed that Mr. Leigh be requested to solicit a voluntary rate from all occupiers and proprietors of houses and land within the following limits, to be applied towards clearing the sewers and streets, viz., Government street from James Bay to Johnson street, Yates, from Wharf to Douglas street, Johnson, from Wharf to Douglas street, Wharf, from Fort to Johnson street, Fort, from Government to Douglas street.

Mr. Fell suggested that if the fund raised permitted the holes in the street be repaired.

The Mayor highly approved. The streets in some places were in shocking repair.

NUISANCES.

Mr. Fell drew attention to the state of the sidewalks, which had dangerous holes in them in various parts of the city.

The Mayor said the sidewalk ordinance was a very good one, and if the proper parties were brought before him he would certainly fine them.

Mr. Fell also drew attention to the nuisances created by Chinese washermen, particularly in the neighborhood of Store street.

The Mayor said he was surprised no one had ever complained to him of this nuisance.

Mr. Munro also called attention to the state of the sidewalk on Johnson street at Bunster's Brewery. Vehicles passing over had cut the sidewalk and left dangerous holes. A lady was passing the other day with an infant in her arms, and fell through, throwing the child some distance in advance.

Council adjourned to Monday evening next at seven o'clock.

AN INCONGRUOUS PLEA—A man named Andrew Hunter was charged yesterday before Mr. Pemberton with stealing a hat. Hunter, in answer to the charge, volunteered a long rambling statement recounting a series of purchase, sale and barter with a view to show that he had become lawfully possessed of the article in question, but tending more to inculpate than to exculpate him from guilt. The magistrate informed him that there was no evidence to fix the charge upon him except his own admission, and he might therefore leave the dock, a hint Andrew was not slow in taking.

CELESTIAL BOOR.—A Chineman, named Ah Kum, charged a countryman named Ah Phon yesterday in the Police Court with making the friendly observation towards him "Me kill you!" The magistrate bound the recusant over to keep the peace.

A CARD.

G. W. COOL, Dentist, returns his sincere thanks to the citizens of Victoria for the liberal patronage he has received from them for the last three years, and would respectfully inform them that he intends leaving about the 25th April, and all who desire first class work done at New York prices should call immediately. Teeth extracted for $1; and full upper sets for $40, and all other operations in proportion.

OFFICE—Langley street.

FRENCH LANGUAGE. — Mons. B. Deffis (Graduate of the Académie de Paris) *intends opening a new class* in French for beginners on the 29th instant, at 7 o'clock in the evening. Little need be said at the present day of the importance of a knowledge of the French language. It is the key to immense treasures in literature and science; the medium of communication in European diplomacy, and is confessedly an indispensable accomplishment of the modern traveler, and the men of liberal education. Address—Trounce Alley.

NOTICE TO MINERS—Every one who is going to Cariboo or Kootenay where they cannot apply to an experienced dental Surgeon whenever they require his assistance should have their teeth examined and put in order before leaving Victoria. Mr. F. W. CAVE, Surgeon Dentist, Trounce Alley, Government street, is the most qualified person they can apply to, and his charges for filling, drawing, and scaling teeth, or for fitting artificial teeth singly or in set, are as moderate as those usually made in the large cities of England and the East.

DANCING CLASS.—A Dancing Class for young ladies is held at Mrs. Hayward's Schoolroom, Fort street, on Tuesday and Friday afternoons.

MRS. DIGBY PALMER continues the Monday and Thursday evenings' Dancing Classes at her residence, Douglas street.

SCURVY.

Scurvy is not confined to Arctic travelers and neglected sailors; it shows its disgusting features also among the ill-fed poor in our filthy lanes. Nothing has been found so speedily efficacious in arresting the decomposing tendency of the vital fluids in scorbutic disease as the PERUVIAN SYRUP.

HOLLOWAY'S PILLS AND OINTMENT.—Indigestion Acidity on the Stomach.—These corrective and purifying Pills, assisted by the external application of the Ointment, will subdue these troublesome disorders, though assuming an infinity of forms, and under each disguise mocking the skill of the wisest physicians. Their first action is to clear away all obstructions, purify the blood, regulate the secretions, and give tone to the stomach, and energy to the system generally. The cure they effect is not temporary or imperfect, but they work a most marvellous and beneficial change throughout the entire body, and enable it, with renovated powers, to resist the approach of future attacks on stomach or liver. They act, likewise, most wholesomely on the kidneys, spleen, bowels, circulation, and nerves.

DISEASES OF OLD AGE.

As man approaches his allotted three score and ten years the vital powers begin to fail; stimulants of various kinds are used to strengthen the naturally failing system, such as wines, barks, &c. Instead of these, let the aged keep up the supply of the strengthening element, iron, by the PERUVIAN SYRUP, which offers a protoxide of that metal ready for immediate absorption.

HOLLOWAY'S PILLS.—Let the sick take heed.—The stomach is the commissariat of the physical system. It furnishes the material sustenance of every organ. If disordered, the whole body languishes; but however severely it may be affected, its tone and vigour may always be restored by a course of these irresistible Pills. Biliousness, indigestion, liver complaints, and other disorders of the stomach, can easily be cured by the use of Holloway's Pills. Thousands attest this assertion, and no sufferer that has ever tried them will deny their supreme efficacy. In every case of stomach disease, from the mildest case of dyspepsia to the disorder of both liver and stomach, from the nausea of the free liver to the vomiting accompanying ulcerated stomach, these Pills immediately relieve, and, by perseverance, effectually cure.

ASTHMA.

The most distressing forms of this complaint arise from irregular nervous stimulation, causing in the end, enlargement of the air-cells, and spasmodic contraction of the air-tubes on the slightest provocation. The PERUVIAN SYRUP equalises the circulation, calms the nervous symptoms, and restores the equilibrium of the nutritive powers.

ST. VITUS' DANCE.

This distressing and mortifying nervous affection is left generally either to take its natural course, or is treated on general principles with very little success. The nervous symptoms are not the disease itself, and proceed from functional or organic derangement in the nervous centres. No medicine has been found equal to the PERUVIAN SYRUP, in checking the involuntary nervous tremblings known as St. Vitus' Dance.

"CONSTITUTION WATER,"
THE ONLY REMEDY
FOR DISEASES OF THE
Bladder! Kidneys!!
Gravel, Dropsical Swellings,
GENITAL DEBILITY, &c

THE ASTONISHING SUCCESS WHICH has attended this INVALUABLE Medicine renders it the most valuable one ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system; in fact, it stands unrivalled as a remedy for the permanent cure of maladies above mentioned, and also DIABETES, IMPOTENCY, LOSS OF MUSCULAR ENERGY, PHYSICAL PROSTRATION, INDIGESTION, SEMINAL WEAKNESS, GLEET, FLUOR ALBUS, And in every disease any way connected with the disorders or decays of the PROCREATIVE FUNCTIONS Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER.

Whether broken down by excess, weak by nature or impaired by sickness, the unstrung and relaxed organization is at once rebraced, revivified, and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom of an almost idiotic apathy, becomes bright and active; and he goes forth regenerated, conscious of new vigor. The medicine reaches the CONSTITUTION itself, and restores it to its normal condition.

Irritation of the Neck of the Bladder, INFLAMMATION OF THE KIDNEYS AND CATARRH OF THE BLADDER, STRANGURY AND BURNING, OR PAINFUL URINATING, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES, AFTER URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said of its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases, and you will ever give your praise to

IODINE WATER.

IODINE WATER IS THE MOST IMportant discovery of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the HEART, LIVER, KIDNEYS, DIGESTIVE ORGANS AND GLANDULAR SYSTEM, and to have great control over SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless, until Dr. Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton of this city, and Professor Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioners (see American Medical Monthly, July 6, 1856, page 76.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver, and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, &c.

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increasing the appetite. In cases of Dyspepsia, Emaciation and Debility an increasing nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.

Full directions accompany each bottle.

Established 1838. Incorporated by Special Act of Parliament.

Subscribed Capital, $3,000,000
Annual Revenue, 515,000
Subsisting Assurances, 13,500,000

THIS COMPANY OFFERS TO THE Public the combined advantage of Perfect Security, Moderate Premiums, and Liberal Participation in Profits.

Moderate Rates of Premiums, with and without Profits for whole of Life, and for short periods.

Policies declared indisputable on any ground whatever, at the end of five years from their date (provided satisfactory evidence of age has been produced), so that they will not be vitiated by any error or misstatement in the declaration of the Assured—the only condition being that the Premium (and extra Premium if exigible) be regularly paid when due.

Half Premium System.

Without Debt or Interest.

The special attention of those who may find it inconvenient at first to pay the full Premium, is requested to this scheme. Under it Assurances may be effected at half-rates for five years without any debt being created, as in the Half Credit System. It offers peculiar advantages to persons of moderate but progressive incomes.

The Infallible Remedy.

Holloway's Ointment.

Contracted or Stiff Joints.

All the medicines in the London dispensaries would barely benefit, much less cure, any chronic cases of contracted or stiff joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail.

Scorbutic Humours.—Scald Head and Skin Diseases.

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners, use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Gravel.

In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brought about in six months by any other treatment. In bad cases if the Ointment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate relief. Six or eight of the Pills should be taken nightly according to circumstances.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every other means have failed, if applied immediately, and not delayed until the patient is beyond recovery. It is a sovereign remedy for sore throat. Settled Coughs or wheezing will be promptly removed by rubbing in this unguent. Mothers should rub it into the chest of their infants whenever there is any hoarseness, tightness, or other affection of breathing.

Bad Legs, Bad Breasts,—Old Wounds, Sores and Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rheumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain-giving poison which vitiates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chilblains	Glandular Swellings	Sore-throats
Bad Breasts	Chapped Hands	Lumbago	Skin-diseases
Burns	Corns (Soft)	Piles	Scurvy
Bunions	Cancers	Rheumatism	Sore-heads
Bite of Moschitoes and Sand-Flies	Contracted and Stiff Joints	Scalds	Tumours
Coco-bay	Elephantiasis	Sore Nipples	Ulcers
Chiego-foot	Fistulas		Wounds
	Gout		Yaws

BENSON'S WATCHES & CLOCKS

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism.—*Times*, June 11, 1862.

"A triumph of ingenuity.—*Telegraph*, March 31, 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—*Standard*, June 7, 1862.

"Some of them are of great beauty, and if the English watch trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News* November 8th, 1862

LILLIE'S SAFES Cannot be Picked!

The Russell & Erwin Manufacturing Company, General Agents,

106 and 108 *Battery Street, San Francisco.*

A TRIAL TEST!!

This is to certify that we purchased on the THIRD inst., of Mr. F. Tillman, the agent in this city of Tilton & McFarland, one of their BEST SAFES, WITH INSIDE STEEL VAULT, and WARRANTED by their agent to be FIRE and

BURGLAR PROOF,

the sale. The outside door of said Safe is secured by their six-tumbler key lock. The door of the Steel Vault is fastened by their six-tumbler key lock, and a five ring Combination Lock.

Mr. F. W. Ensign opened the said Safe, by picking the lock on the outside door in

TEN MINUTES,

and the door of the Steel Vault, by making a key from measurements taken from the outside thereof, while said door was closed and locked, and by picking the Combination Lock (not using tools or violence) in five hours and fifty-seven minutes, being

One Hour and Three Minutes within the time he was limited to.

The trial was made WITH THE CONSENT OF MR. TILLMAN, who was apprised of the conditions thereof beforehand, and who, upon the above result being made known to him, promptly offered to carry out his warrantee by sending for said Safe and taking it off our hands.

I CANNOT, and do not, after witnessing the above operations, CONSIDER SAID LOCKS AS BURGLAR PROOF. Signed,

Alexander Boyd,
Of BOYD & DAVIS, 209 Front street, San Francisco.

SACRAMENTO, August 8, 1864

This is to certify that Mr. W. F. Ensign has picked the lock on the "County Treasury Safe," it being one of Tilton & McFarland's "Best Steel Lined Safes." Mr. Ensign *unlocked the Safe on a different combination from the one we used, it working as well on one as the other.* We have adopted "Lillie's Duodecagon Bank Lock" in its place.

(Signed,) F. S. LARDNER, Treasurer.

NEW LOCK ORDERED.—The Board of Supervisors yesterday ordered the purchase of a new lock, to be attached to the Safe used by the County Treasurer. This safe is one of Tilton & McFarland's manufacture, and is provided with a Combination Lock. An agent for the sale of LILLIE'S SAFE offers for sale a new Lock. He claims to be able to pick any ordinary lock now in use in the city; and yesterday, to illustrate the case, opened the County Treasury Safe in the presence of a number of persons, after it had been carefully locked by Treasurer Lardner. He also opened the safe of A. Egl, fruit dealer on J street, after it had been closed by the owner. The Lock which he sells has, it is claimed, never been picked. It can be appended to any ordinary Safe as a substitute for the original lock. The Board of Supervisors being satisfied that the County funds are at present unsafe, ordered the new lock, at a cost of $175.—*Sacramento Union, August 6th.*

An Unexampled Fire-Proof Test—$30,000 Saved in Eighteenth street.

NEW YORK, Wednesday, July 18, 1860.

LEWIS LILLIE, Esq., Troy, New York—Dear Sir: When I visited your works, in Troy, I became satisfied of the superiority of your Chilled and Wrought Iron Safes, and, as I then said, I was determined to order one on my return to New York; my determination was delayed, however, that I might investigate the charges which your competitors, in this city, brought against the reputation of your Safes. I did not do this, however, until after the night of June 16th, when my Sheet Iron Safe was blown open and robbed of $490. I then bought of your Agent, Mr. Frank E. Howe, No. 203 Broadway, upon whose representations I entirely relied, one of your No. 5 FIRE AND BURGLAR PROOF SAFES, although I was told by the same competitors that in case of fire its contents would be entirely destroyed.

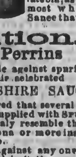

On the night of the 29th of June, my office, which was a four-story building, together with my steam saw-mill adjoining, were entirely destroyed by fire. Your Safe was in the second story, and *was entirely surrounded by the hottest fire I have ever known.* It fell red hot into the cellar, striking a bed of rocks upside down, and it was not until then that any water came in contact with it, as the neighborhood was too hot for the firemen to hold the hose on the building.

I had all my books and valuable papers in this Safe, together with $30,000 in money and notes, and I am free to say, that when it was dragged out of the ruin, I did not expect the contents to be saved, as the engineers and firemen assured me it was as hot a fire as they ever attended. Quite the contrary was the case, however, as *all its contents were entirely saved;* and it is my pleasure, as I deem it my duty, to refer those interested to the Safe, now in your possession, and to its contents, which, I will cheerfully show at my office. Yours, &c.,

J. J. VAN PELT, Agent for the E.R.S.S. Mills. ja28

DR. J. COLLIS BROWNE'S

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C.S. L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or saving any of the unpleasant effects of opium.

From W. Vesalius Pettigrew, M D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

From C. V. Ridout, Esq., Surgeon, Egham: "As an astringent in severe Diarrhœa and an antispasmodic in Colic and Cramps in the Abdomen, the relief is instantaneous."

Chlorodyne—Vice Chancellor Sir W. P. Wood on Jan. 11, pronounced "that it is clearly proved before the court that Dr. J. Collis Browne was the original Inventor and discoverer of a remedy well known as Chlorodyne, and so highly appreciated in India, China, &c."

Extracts from the General Board of Health London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy acts as a charm, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

Caution—Chlorodyne—In Chancery.

It was clearly proved before Vice-Chancellor Sir W. P. Wood, by affidavits from eminent hospital Physicians of London, that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. See Times, Jan. 12, 1864. The public, therefore, are cautioned against using any other than Dr. J. COLLIS BROWNE'S CHLORODYNE. No home should be without it. Sold in bottles, 2s 9d and 4s 6d., by J. T. Davenport, 33 Great Russell street, London, W. C., sole manufacturer. Observe particularly, none genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government Stamp. ja24 1yw
